SUMMARY

Information Systems graduate from Trilogi University (GPA: 3.58) with hands-on experience in Web Development, UI/UX Design, IT Support, and Treasury. Skilled in analyzing user needs, developing digital solutions, and resolving technical issues across systems and networks.

A detail-oriented and adaptable professional with strong communication and problem-solving skills, ready to contribute effectively and grow in a dynamic work environment.

EXPERIENCE

Web Developer — 11/2025 – 05/2026
Kementerian Ketenagakerjaan

1. Designed UI/UX wireframes and prototypes using Figma, translating business requirements into intuitive and user-centered web application designs.

2. Developed and maintained an Employee Complaint Management System using Laravel, PHP, MySQL, Composer, and Tailwind CSS, including database design, authentication, responsive interfaces, and application performance optimization.

3. Developed and managed the UKPBJ (Unit Kerja Pengadaan Barang/Jasa) Portal Website using WordPress CMS, including website customization, content management, and user experience improvements.

4. Implemented dynamic web functionalities through JavaScript, AJAX, and REST API integration while ensuring application security, responsiveness, and efficient data processing.

Institutional Relations Manager (IRM) – Treasury — 01/2025 - 05/2025
Pertamina (Persero)

1. Reconciled PT Pertamina Ledger with bank statements across Subholdings and Subsidiaries using SAP and Power BI to ensure accurate cash balances.

2. Verified payment data accuracy, including payment amounts, destination accounts, and invoices: inputted payment instructions into data recaps.

3. Collected monthly bank balance reports from PT Pertamina (Persero) accounts across multiple banks, including Mandiri, BRI, BNI, BCA, BTN, Citibank, BSI.

Web Developer - UI/UX Design — 08/2024 - 12/2024
Media Periklanan Indonesia (Dewarangga Group)

1. Conducted user-centered design processes by analyzing user requirements, developing user personas, mapping user journeys, and translating business needs into functional requirements to support effective web application development.

2. Designed and prototyped web application interfaces through wireframes, mockups, and interactive prototypes using UI/UX principles, ensuring intuitive user experiences, consistent visual design, and optimized user flows.

3. Developed and implemented responsive web application features using Laravel, JavaScript, HTML, CSS, and MySQL by translating UI/UX designs into functional solutions, including database integration, form validation, testing, debugging, and performance optimization to meet project objectives and deadlines.

Junior IT Support — 09/2020 - 12/2020
Kementerian Komunikasi dan Informatika

1. Performing crimping, tidying up, and checking LAN cable connections.

2. Assisting with network troubleshooting, including VPN, DHCP, and IP Address settings.

3. Assisting with Windows operating system installation and configuration. Performing maintenance and initial checks for computer/laptop damage and installing basic software.

4. Compiling documentation and daily activity reports related to IT technical support.

EDUCATION

Information Systems 09/2021 - 08/2025

Universitas Trilogi - Bachelor's Degree in Information Systems

1. Studied Information Systems with a focus on analyzing user needs, designing digital solutions, and implementing web-based technologies. Developed skills in UI/UX Design, Web Development, and WordPress CMS management.

2. Actively participated in academic projects, including assisting lecturers in redesigning the faculty website using Figma and WordPress. Awarded3rd Place in a Web Design Competitionorganized by the university.

CERTIFICATES

Pelatihan sertifikasi career BNSP Microsoft Office Belajar lagi X Bank Indonesia 11/2024 - 11/2027

- Using Microsoft Word to create professional documents such as official letters, reports, tables, and office administration formats.
- Processing data using Microsoft Excel, including the use of basic to intermediate formulas such as SUM, AVERAGE, COUNT, IF,
- VLOOKUP/HLOOKUP, and Pivot Tables for data presentation and analysis.
- Designing professional presentations in PowerPoint with data visualization, animation, and layout settings for business
- communication and work presentation needs.

Studi Fresh Graduate Academy - UI/UX Design Binary Academi X Kominfo 01/2024 - 05/2024

- The ability to understand UX research methodsin orderto analyze the observations and synthesizethem and the ability to understand
- and apply the end-to-end process of UI low-fidelity design usingthe ideal concepts and methods.
- The ability to understand how to develop the design prototype, and planning the usability testing.
- create UI research including problem identification create point of view create user personal affinitymap create user journey how
- make we user story flowchard learn to create wireframe, wireflow,system design and high fidelity.

Studi Independen (kampus Merdeka) – FullStack Development Learning X Internasional 08/2023 - 12/2023

- The ability to understand UX research methodsin orderto analyze the observations and synthesizethem and the ability to understand
- and apply the end-to-end process of UI low-fidelity design usingthe ideal concepts and methods.
- The ability to understand how to develop the design prototype, and planning the usability testing.
- create UI research including problem identification create point of view create user personal affinitymap create user journey how
- make we user story flowchard learn to create wireframe, wireflow,system design and high fidelity.

Sertifikasi BNSP KKNI Level II pada Kompetensi keahlian Teknik komputer jaringan Lembaga 06/2021 - 06/2024

- Assemble, maintain, and troubleshoot computer/laptop devices and document the repair process.
- Install and configure Windows/Linux operating systems, Mikrotik, and supporting software, and document the installation process.
- Performing basic network configuration (IP Address, DHCP, DNS), crimping and testing LAN cables, setting up routers/switches
- including Mikrotik, and network troubleshooting.
